

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTE.

At the January Session of the General Assembly 1858 of the State of Rhode Island and Providence Plantations, the following resolution was passed :

RESOLUTION for printing and distributing the census returns of 1774.

Resolved, That the secretary of state be, and he is hereby, authorized and empowered to cause to have printed, at the expense of the state, five hundred copies of the official census of Rhode Island, made by order of the General Assembly in the year 1774 ; together with a list of men over 16 years of age, made in 1776 ; provided the cost of the same shall not exceed four hundred dollars ; and that when printed, the volume be distributed as follows :

One copy to each of the states and territories in the United States ; one copy to each of the public offices in Washington ; one to each of the historical societies in the United States ; one to each of the town clerks in the state ; one to each of the judges and the clerks of the several courts in the state ; one to each of the public libraries in the state ; one to each of the general officers, school commissioner and the members of the present General Assembly ; one to each public library or institution which now receives the documents of the state ; thirty copies to the Rhode Island Historical Society ; and thirty copies for libraries, societies and individuals engaged in historical research, at the discretion of the secretary.

On examining the census returns of 1776, alluded to in the resolution, it was found that those of Newport and several other towns were wanting. For this reason it was thought best, rather than give imperfect lists, to confine the publication to the census of 1774, the original returns of which were complete among the files of the secretary's office, except those of the town of New Shoreham. Of this town, merely the numbers were given, and no names. In printing the census, the orthography of the original manuscript has been followed in the names, as nearly as possible. A recapitulation of the census will be found at the end.

The following reference is from the original record.
